Thanks for more on the Ricky White mythology.

The enclose Freep story is mythology, too. Most of it made up and what wasn't was twisted almost completely.

There are documents on Priscilla Johnson disclosed but I've had no interest in them and thus don't have them.

To the best of my knowledge they are meaningless about the assassination.

The Winnipeg airport business also is mythology, made up by a guy whose name you did not give me, Giesebrecht/

It is not unusual for the documents to have been in different but related JFK assassination files. Both of those are HQ numbers, the first, the 105, on Oswald, and the 62 one is the file on the assassination.

Thanks and best wishes,
